⚠️ WARNING ⚠️

DO NOT USE WITH FRONT OR REAR PROJECTION TV

Do not use a front or rear projection television with your Nintendo Entertainment System™ (“NES”) and NES games. Your projection television screen may be permanently damaged if video games with stationary scenes or patterns are played on your projection television. Similar damage may occur if you place a video game on hold or pause. If you use your projection television with NES games, Nintendo will not be liable for any damage. This situation is not caused by a defect in the NES or NES games; other fixed or repetitive images may cause similar damage to a projection television. Please contact your TV manufacturer for further information.

READ BEFORE USING YOUR NES

A very small portion of the population may experience epileptic seizures when viewing certain kinds of flashing lights or patterns that are commonly present in our daily environment. These persons may experience seizures while watching some kinds of television pictures or playing certain video games. Players who have not had any previous seizures may nonetheless have an undetected epileptic condition. We suggest that you consult your physician if you have an epileptic condition or if you experience any of the following symptoms while playing video games: altered vision, muscle twitching, other involuntary movements, loss of awareness of your surroundings, mental confusion, and/or convulsions.
Thank you for purchasing the Yoshi’s Cookie™ game pak for your Nintendo Entertainment System®.

SHAKE AND BAKE
WITH YOSHI™

Yoshi’s Cookie is a fast-paced puzzle game that can be enjoyed by everyone as it is easy to play, but challenging to complete! To play, move the randomly placed cookies (HEART, FLOWER, DIAMOND, CHECK, CIRCLE, and YOSHI [Yoshi’s face]) into rows and columns of cookies with similar patterns. When you successfully assemble a row or column of the same cookies, the line will disappear and you can start working on a new row or column. The “Yoshi” Cookie is very special in both the 1-player game, a screen-clearing game, and the 2-player game, a race that lets you test a friend’s skill. Since the Yoshi Cookie is the key to both games, you must use it wisely to avoid sticky situations.
HOW TO USE THE CONTROLLER

**HINT FROM YOSHI**
Think of the cookies at the far edges of the rows and columns as being side by side. For example, if you move one of the top cookies up, it will appear at the bottom of the vertical column. Likewise, if you move one of the right-hand cookies to the right, it will appear on the left side of the horizontal row.

---

**A Button:**
Hold down the A Button and press the Control Pad to move the cookies from row to row.

**Example (1):**
Hold down the A Button and press up on the Control Pad to move the selected cookie and the cursor (+) to form a row of diamond cookies.

Correctly insert the cartridge into the Nintendo Entertainment System (NES) and depress the power switch on the NES to the ON position.

Use either the Control Pad or the SELECT Button to select the 1P (1-player) or VS. (2-player) games. Then press the START Button to display the menu screen.

**SPEED:** LOW [slow], MED [medium], HI [fast]

This changes the speed at which the new cookies appear on the screen.

**MUSIC TYPE:** A, B, C, or OFF

Use this to select the background music. Select “OFF” to stop the music.

**TIME SPEED:** LOW [slow], MED [medium], HI [fast]

In the VS. mode, both players can adjust the speed of their individual time gauges. This function can be used to handicap more experienced players.

**HANDICAP:** 0 to 20

Use this to give a player with less experience a head start.

*To select the items to be set, press up and down on the Control Pad. To set each of the levels, press left and right on the Control Pad. Once you've finished using the menu screen, press the START Button to start the game.
HOW TO PLAY A 1-PLAYER GAME

To play the one player game, line up similar cookies in vertical columns or horizontal rows to make the completed columns and rows disappear. From time to time, the very special Yoshi Cookie will appear. Since it’s a wild card, you can match the Yoshi Cookie with any of the other cookies! Get rid of all the cookies on the screen to clear the stage. If you clear 10 stages, you will advance to the next round. However, the game ends if your pile of cookies expands to the edges of the screen.

Eliminate rows and columns of cookies to score. If you can get rid of a long row, or simultaneously or continuously remove several rows, you’ll be rewarded with a better score. You’ll also get bonus points if a Yoshi Cookie is in the row or column that you are discarding.

HINT FROM YOSHI!

You’ll receive 1 Yoshi Cookie each time you eliminate 15 similar cookies. Use the graph in the lower right corner of the screen as a guideline. If you complete ROUND 10, you’ll get a special message from Mario.

- Simultaneously deleting 2 rows: The score of the 1st deleted row + the score of the 2nd deleted row x 2
- Simultaneously deleting 3 rows: The score of 2 deleted rows + the score of the 3rd deleted row x 4
- Simultaneously deleting 4 rows: The score of the 3 deleted rows + the score of the 4th deleted row x 8

*When deleting two rows or columns simultaneously, the rows below and the columns to the right will disappear first.*
HOW TO PLAY THE VS. GAME

Arrange the similar cookies in a vertical column or horizontal row on the 5 x 5 grid. Your point meter will increase each time you remove a row or column. The player who fills his or her point meter first wins the game. Also, your game will end if you fail to delete a row or column of cookies before the time gauge expires. If you win a game, you will receive a Yoshi Mark. The first player to collect 3 Yoshi Cookies wins the match.

HOW TO SUCCESSFULLY ATTACK YOUR OPPONENT

When playing against an opponent, the Yoshi Cookie is not a "joker" cookie. A Yoshi Cookie will appear each time one player eliminates a row or column of similar cookies. Once you create a row of 5 Yoshi Cookies, the action in the box above the playing board will occur.
